## **AKASHIC RECORDS CONSULTATION CONSENT**

The Akashic Record is the recording of the Soul's journey since inception, as well as the possibilities of its unfoldment in the future. An Akashic Record consultation consists of opening up the Records of your Soul, with your permission. Your Akashic Record is accessed with a sacred prayer. We work with your questions, so it is important to prepare yourself by reflecting on your current life circumstances and where you would like greater clarity. Your openness determines to a large extent what happens during the session and what will be brought forward. Know that the information will be delivered with love and honor. The perceptions, insights and guidance you receive from this experience will support you in your life.

Everything said during the consultation will be held in confidence by me. You may choose to share this experience with others. However, you alone are responsible for the results of sharing the information and for reviewing this session in the context of your own life. You may notice the effects of this session immediately, months later, or both.

This consultation is intended to provide general and inner developmental information only and is not intended as medical advice, psychiatric or psychological evaluation, diagnosis or treatment. Consult your physician or health care professional regarding health matters. The consultant and ARCI disclaim any liability arising directly or indirectly from any information given or received in this consultation. Thank you for the honor of serving you in this manner.

Please sign below to indicate that you acknowledge this letter as written and give consent to have me access your Akashic Record. Please complete all information.
